Background

2Agriculture are offering an exciting opportunity for a Weighbridge Operative to join the team at Chettisham Mill on a permanent basis. It is a fantastic time to join 2Agriculture and play a key role in realising our ambitious growth plans.

About 2Agriculture

2Agriculture is an independent milling business which has been supplying feed to the poultry industry for the past 50 years.

Every day here at 2Agriculture we work with talented, dedicated colleagues to produce sustainable, premium quality feed enabling our farming partners achieve the highest standards of poultry and positively impact on our health, communities and the environment.

Service is at the heart of the team at 2Agriculture where over 250 employees work across five sites. Our feed mills operate to the highest standards set for product quality, with a specialist production team monitoring output ensuring zero or minimal mill downtime. Our fleet of over 40 Lorries operate 24/7 ensuring feed arrives on time and in full, with a real focus on biosecurity prior to delivery, on site and during departure.

Role Profile

The role of the Weighbridge Operative is to accurately and efficiently carry out the weighing of incoming raw materials and outgoing feed vehicles on the site weighbridge in order to deliver business objectives.

As a Weighbridge Operative you will weigh the vehicle in and out on the mill weighbridge to ensure that the vehicle is loaded as per details on the M-Tech computer. This also involves weighing in all raw materials and liaising with the mill production team to ensure these raw materials are routed to the correct storage bin. You will have responsibility of access to the site, ensuring it is strictly controlled to ensure a safe working environment.

Your daily duties will include completing all relevant documentation relating to each day's work to ensure compliance with current road haulage legislation and company policy and procedures. An essential aspect of this role is the ability to liaise with customers and suppliers to ensure the efficient flow of information, so all internal and external requirements are met. Within this role you will also assist the quality control team by inspecting and retaining samples of raw materials and finished feed for audit purposes and to ensure quality standards are met. In addition, you will liaise with the Hygiene team to ensure the environment is safe and clean, enabling KPI's for hygiene to be met.

Essential Skills and Experience Required

To be successful in this role, the desired candidate should have strong experience within a similar role and be able to demonstrate excellent administrative and data processing skills. Ideally you should also hold experience of working with strict procedures and compliance requirements.

You should be confident in establishing good relationships with colleagues and customers, striving for high customer satisfaction and demonstrating a professional and approachable attitude throughout customer interaction. Whilst having the ability to prioritise and use own initiative in order to meet the demands of a fast-paced work environment you should be able to demonstrate flexibility within the role, adapt approach and priorities in support of business needs.

If you are interested in applying for the post, please send your CV to HR@2agriculture.com. Please note, due to the volume of applications we will only be contacting the candidates selected for interview.
